BRISTA Composters

Composting is not only environmentally friendly, but also clever. This is how you can become the manufacturer of the best and most of all natural fertilizer. In addition, you keep your garden clean and reuse garbage which makes sense at the same time.

With our composters and accessories, such as composter lids and bottoms, you also benefit from simple installation, long life and a wide variety of composters.

Patented easy installation: By putting the patented hook-shaped fasteners together the BRISTA composters are easily assembled and ready for immediate use.

BRISTA-composter, however you like it:

We supply the composter also hot-dip galvanized and powder coated in RAL color 6005 (moss green).

Part #	Description	Length (mm)	Width (mm)	Height (mm)	Surface
